

MDOT MicroStation Tools and Procedures

TABLE OF CONTENTS

MDOT MICROSTATION TOOLS AND PROCEDURES..... I

Table Of Contents i

CHAPTER 1 GENERAL PROCEDURES 1-1

| | |
|---|------------|
| Interface Overview | 1-2 |
| GUI: The Graphical User Interface | 1-3 |
| <i>How do I get back Tool Bars that are missing?</i> | 1-3 |
| <i>How do I retrieve missing tools on a Tool Bar?</i> | 1-4 |
| Mouseing | 1-5 |
| <i>Standard Buttons</i> | 1-5 |
| <i>Troubleshoot the Middle Button</i> | 1-5 |
| <i>Using a Wheel Mouse</i> | 1-6 |
| Menu Overview | 1-7 |
| <i>Introduction</i> | 1-7 |
| <i>The Principal</i> | 1-7 |
| <i>Organization: The Top Level</i> | 1-7 |
| <i>Organization: The Next Level</i> | 1-7 |
| <i>Organization: Submenus</i> | 1-8 |
| <i>Conclusion: The Pros and Cons</i> | 1-8 |
| File Management..... | 1-9 |
| Network Overview | 1-10 |
| <i>MicroStation Customization files and Drawing Files</i> : | 1-10 |
| Opening Files | 1-11 |
| Making New Files | 1-12 |
| <i>Setup</i> | 1-12 |
| <i>Launch the Makesheetz macro</i> | 1-12 |
| <i>Choose Preliminary Information</i> | 1-12 |
| <i>Choose a File Type</i> | 1-12 |
| <i>Final Filename Editing</i> | 1-13 |
| <i>End Game</i> | 1-14 |
| <i>Safety Features</i> | 1-14 |
| File Names | 1-15 |
| Sheet Renumbering Utility | 1-16 |
| <i>Introduction</i> | 1-16 |
| <i>Operating the Utility</i> | 1-16 |
| <i>Prioritizing Plan Set</i> | 1-17 |
| <i>Precautions</i> | 1-18 |
| PCF Editing | 1-19 |
| <i>Discussion</i> | 1-19 |
| <i>Edit PCF File</i> | 1-19 |
| Border Information Macro | 1-21 |
| <i>Discussion</i> | 1-21 |
| <i>Sheet Numbering</i> | 1-21 |

| | |
|--|-------------|
| <i>Process Options</i> | 1-21 |
| <i>Error Messages</i> | 1-22 |
| <i>Side Effects</i> | 1-22 |
| <i>Changing Data After the Fact</i> | 1-22 |
| <i>Troubleshooting</i> | 1-23 |
| Disabling the BorderInfo Substitution | 1-24 |
| <i>Overview of DropLink.bas</i> | 1-24 |
| <i>Setup</i> | 1-24 |
| <i>Run the DropLink Macro</i> | 1-24 |
| <i>What Does it Do?</i> | 1-24 |
| <i>Quitting</i> | 1-24 |
| Plotting Overview | 1-25 |
| MDOT Plot Drivers | 1-26 |
| <i>US_OCE9800FULL – Final Full Size Plotting</i> | 1-26 |
| <i>US_OCE9800HALF – Final Half Size Plotting</i> | 1-26 |
| <i>US_OCE9800LONG – Long Plots (5' – 20')</i> | 1-26 |
| <i>US_OCE9800FILE</i> | 1-26 |
| <i>US_OCE9400FULL - Full Size Check Plots</i> | 1-26 |
| <i>US_OCE9400HALF – Half Size Check Plots</i> | 1-26 |
| <i>US_OCE9400LONG – Long Plots (5' – 20')</i> | 1-26 |
| <i>US_HPCOLOR2</i> | 1-27 |
| <i>US_HPCOLOR4</i> | 1-27 |
| <i>US_HPCOLORRoom303</i> | 1-27 |
| <i>PLOTCHP4</i> | 1-27 |
| <i>PRINTER_BW</i> | 1-27 |
| <i>PRINTER_COLOR</i> | 1-27 |
| <i>PRINTER_STANDARD_DETAIL</i> | 1-27 |
| <i>Hearing_PRINTER</i> | 1-28 |
| <i>Regional Office Plotters HP750C</i> | 1-28 |
| <i>Regional Office Plotters OCETDS400</i> | 1-28 |
| Pen Tables | 1-30 |
| <i>!pentable.tbl</i> | 1-30 |
| <i>BORINGLOG.tbl</i> | 1-30 |
| <i>ENV_PRINTER_COLOR</i> | 1-30 |
| <i>Graysurvey_wetlands.tbl</i> | 1-30 |
| <i>Heavytopo.tbl</i> | 1-30 |
| <i>MHPC.tbl</i> | 1-30 |
| <i>Prelim_plan_color.tbl</i> | 1-30 |
| <i>Title.tbl</i> | 1-30 |
| <i>Hearing_Thicker.tbl</i> | 1-31 |
| <i>Hearing_Thinner.tbl</i> | 1-31 |
| <i>Laserjetblack.tbl</i> | 1-31 |
| <i>Rowblack.tbl</i> | 1-31 |
| Single Sheet Plotting (Fence Plotting) | 1-32 |
| <i>Step One: Place a fence</i> | 1-32 |
| <i>Step Two: Select Print/Plot</i> | 1-32 |
| Plotting Sheet Files (Batch Printing) | 1-36 |
| <i>Making a Batch Print Job</i> | 1-36 |
| <i>Printing with Batch Print</i> | 1-40 |
| <i>Printing from an Existing Batch Print Job</i> | 1-40 |
| <i>Batch Print Troubleshooting</i> | 1-41 |
| Creating Long Plots | 1-43 |
| <i>Step One</i> | 1-43 |
| <i>Step Two: Placing the Cell</i> | 1-43 |
| <i>Step Three: Rotate View</i> | 1-43 |

| | |
|--------------------------------------|------|
| <i>Step Four: Printing</i> | 1-45 |
| Fence Plotting to Scale | 1-47 |
| <i>Step One: Place Fence</i> | 1-47 |
| <i>Step Two: Setting Scale</i> | 1-47 |
| Color Plotting..... | 1-49 |
| <i>File Setup</i> | 1-49 |
| PlotFile Plotting (.plt) | 1-50 |

CHAPTER 2 GENERAL TOOLS 2-1

Fundamentals 2-2

| | |
|--|------|
| Element Attributes | 2-3 |
| <i>Setting Attributes</i> | 2-3 |
| <i>Settings Manager</i> | 2-3 |
| <i>Level Display</i> | 2-4 |
| <i>Level Manager</i> | 2-5 |
| Snaps..... | 2-7 |
| <i>AccuSnap</i> | 2-8 |
| <i>Keypoint</i> | 2-9 |
| <i>Intersection</i> | 2-9 |
| <i>Center</i> | 2-9 |
| <i>Nearest</i> | 2-10 |
| View Control..... | 2-11 |
| <i>Overview</i> | 2-11 |
| <i>Rotate View</i> | 2-11 |
| <i>3D Troubleshooting</i> | 2-11 |
| Complex Chains and Shapes..... | 2-12 |
| <i>Overview</i> | 2-12 |
| <i>Creating Complex Chains</i> | 2-12 |
| <i>Creating Complex Shapes</i> | 2-13 |
| <i>Troubleshooting</i> | 2-14 |
| Complex Regions..... | 2-15 |
| <i>Overview</i> | 2-15 |
| <i>Launching the Tool</i> | 2-15 |
| <i>Complex Region Methods</i> | 2-15 |
| <i>Fill</i> | 2-18 |
| <i>Keep Original</i> | 2-18 |
| <i>Tips and Tricks for Flood</i> | 2-19 |

Introduction to the Settings Manager 2-20

| | |
|---|------|
| Structure of the Settings Manager | 2-21 |
| <i>The Many Faces of the Settings Manager</i> | 2-21 |
| <i>Opening the Settings Manager</i> | 2-22 |
| Settings Manager Scale..... | 2-23 |
| <i>Real World Size Vs. Paper Size</i> | 2-23 |
| <i>Selecting a Scale</i> | 2-23 |
| <i>What does this change?</i> | 2-24 |
| Settings Manager Working Units | 2-25 |
| <i>Choosing a Working Units Setup</i> | 2-25 |
| <i>The Defaults</i> | 2-25 |
| <i>Switching to U S Custom</i> | 2-25 |

Fences & Groups 2-26

| | |
|---------------------|------|
| Selection Sets..... | 2-27 |
|---------------------|------|

| | |
|---|-------------|
| <i>Select All</i> | 2-27 |
| <i>Select None</i> | 2-27 |
| <i>Element Selection</i> | 2-27 |
| <i>PowerSelector</i> | 2-28 |
| <i>Methods</i> | 2-28 |
| <i>Modes</i> | 2-28 |
| “Permanent” Grouping | 2-28 |
| Advanced PowerSelector | 2-30 |
| <i>Setup</i> | 2-30 |
| <i>Tabs</i> | 2-30 |
| <i>Adding Elements</i> | 2-30 |
| <i>Subtracting Elements</i> | 2-32 |
| <i>Color, Style, Weight, Type and Class</i> | 2-32 |
| Select By Attributes | 2-33 |
| <i>Overview</i> | 2-33 |
| <i>Standard Methods</i> | 2-33 |
| <i>Element Type Hints</i> | 2-34 |
| Advanced Select By Attributes | 2-35 |
| <i>Overview</i> | 2-35 |
| <i>Modes</i> | 2-35 |
| <i>Properties</i> | 2-36 |
| <i>More Properties</i> | 2-37 |
| <i>Set Select By From Element</i> | 2-37 |
| Fences | 2-39 |
| <i>Discussion</i> | 2-39 |
| <i>Fence Types</i> | 2-39 |
| <i>Fence Modes</i> | 2-39 |
| <i>Points to Ponder</i> | 2-40 |
| Graphic Groups | 2-41 |
| <i>Overview</i> | 2-41 |
| <i>Graphic Group Lock</i> | 2-41 |
| <i>Adding Elements to a Graphic Group</i> | 2-41 |
| <i>Removing Elements from a Graphic Group</i> | 2-42 |
| <i>Adding Elements to an Existing Graphic Group</i> | 2-42 |
| Accudraw | 2-43 |
| Fundamentals of Accudraw | 2-44 |
| <i>Introduction</i> | 2-44 |
| <i>Shortcut Keys for Construction</i> | 2-45 |
| Accudraw Settings | 2-46 |
| <i>Operation Tab</i> | 2-46 |
| <i>Display Tab</i> | 2-47 |
| <i>Coordinates Tab</i> | 2-47 |
| Accudraw Shortcut Commands | 2-49 |
| <i>Some Important Shortcut Keys</i> | 2-50 |
| AccuDraw Example: Roadway Templates | 2-51 |
| <i>Calculating Slope</i> | 2-51 |
| <i>Placing Accudraw’s Origin</i> | 2-51 |
| Drawing in Sub-Units | 2-53 |
| Measuring | 2-54 |
| Coordinate Readout | 2-55 |
| <i>Linear Units, Accuracy</i> | 2-55 |
| <i>Angle Accuracy and Mode</i> | 2-56 |
| Measuring Part 1 | 2-57 |

| | |
|---|-------------|
| Measuring Part 2 | 2-58 |
| <i>Measuring Areas</i> | 2-58 |
| Tips and Tricks | 2-59 |
| <i>Using Flood with PowerSelector</i> | 2-59 |
| <i>Converting Metric Measurements to English</i> | 2-59 |
| Reference Files | 2-61 |
| References Dialog..... | 2-62 |
| <i>List box</i> | 2-62 |
| <i>Icons</i> | 2-63 |
| <i>Hilite Mode</i> | 2-63 |
| <i>Main Menu (Tools)</i> | 2-64 |
| <i>Main Menu (Settings)</i> | 2-65 |
| References Attach | 2-66 |
| <i>Nested Attachments</i> | 2-67 |
| <i>Depth</i> | 2-68 |
| <i>Display Raster References</i> | 2-68 |
| Reference File Moving | 2-69 |
| Reference File Rotation | 2-70 |
| Raster Files | 2-71 |
| Raster Attach..... | 2-72 |
| <i>Determine Image Size</i> | 2-72 |
| <i>Place Block</i> | 2-72 |
| <i>Attach Raster Image</i> | 2-73 |
| Macros | 2-75 |
| Batch Process Reference Settings..... | 2-76 |
| <i>Step 1</i> | 2-76 |
| <i>Step 2 & 3</i> | 2-77 |
| <i>Step 4 & 5</i> | 2-77 |
| Batch Attach Reference Files | 2-79 |
| <i>Files to Process</i> | 2-79 |
| HotSwap..... | 2-81 |
| <i>Overview</i> | 2-81 |
| <i>Launch the Macro</i> | 2-81 |
| <i>Identify the Element</i> | 2-81 |
| <i>Set Zoom Level</i> | 2-81 |
| <i>Tips</i> | 2-81 |
| Label Slope By Points..... | 2-82 |
| <i>Overview</i> | 2-82 |
| <i>Setup</i> | 2-82 |
| <i>Run the Macro</i> | 2-82 |
| Flattening your Active File | 2-83 |
| <i>When to Flatten</i> | 2-83 |
| <i>How to Flatten</i> | 2-83 |
| <i>How to Undo The Flatten</i> | 2-83 |
| <i>Other Options When Flattening</i> | 2-83 |
| <i>Just What Exactly Does the Flatten Macro Do?</i> | 2-84 |
| Steel Macro | 2-85 |
| <i>Overview</i> | 2-85 |
| <i>Step Zero: Preparation for the Macro</i> | 2-85 |
| <i>Step One: Launch the Macro</i> | 2-85 |
| <i>Step Two: Pick Your Shape</i> | 2-85 |

| | |
|---|-------------|
| <i>Step Three: Choose an Origin</i> | 2-87 |
| <i>Step Four: Place the Shape.....</i> | 2-88 |
| <i> Option One: More of the Same</i> | 2-89 |
| <i> Option Two: Undo</i> | 2-89 |
| <i> Option Three: Using Previous Shapes.....</i> | 2-89 |
| <i> Option Four: Angle Legs</i> | 2-90 |
| Weld Macro | 2-91 |
| <i>Overview.....</i> | 2-91 |
| <i>Step One: Launch the Macro</i> | 2-91 |
| <i>Step Two: Enter Points</i> | 2-91 |
| <i>Step Three: Fill out the Dialog.....</i> | 2-91 |
| <i>Step Four: Apply Settings</i> | 2-95 |
| <i>Undo It.....</i> | 2-95 |
| Move Filled Shapes Back | 2-96 |
| <i>Launch the Macro.....</i> | 2-96 |
| <i>What Does it Do?.....</i> | 2-96 |

CHAPTER 3 SURVEY CLEAN-UP PROCEDURES 3-1

| | |
|--|------------|
| MX Editing Procedures | 3-2 |
| General Information | 3-3 |
| <i>Standard Naming</i> | 3-3 |
| <i>Preserving Original Files</i> | 3-3 |
| Initial Topography | 3-4 |
| <i>Step One: MX Editing.....</i> | 3-4 |
| <i>Step Two: Create MicroStation Drawings.....</i> | 3-4 |
| <i>Step Three: Update Status Report.....</i> | 3-5 |
| <i>Step Four: Communication.....</i> | 3-5 |
| Topography Updates..... | 3-6 |
| <i>Step One: MX Editing.....</i> | 3-6 |
| <i>Step Two: Create New MicroStation Drawings (Add)s</i> | 3-6 |
| <i>Step Three: Regenerate Points, Contours & Triangles.....</i> | 3-6 |
| <i>Step Four: Regenerate Topo Model.....</i> | 3-7 |
| <i>Step Five: Recreate Mapping Model</i> | 3-7 |
| <i>Step Six: Update Status Report.....</i> | 3-7 |
| <i>Step Seven: Communication</i> | 3-7 |
| <i>Step Eight: Create Zip Files For A Design Consultant (If Necessary)</i> | 3-7 |
| <i>Step Nine: Communication to Consultant Coordinator (if necessary)</i> | 3-8 |
| MicroStation Cleanup Procedures | 3-9 |
| General Information | 3-10 |
| <i>Standard Naming</i> | 3-10 |
| <i>Preserving Original Files</i> | 3-10 |
| <i>The End Result</i> | 3-10 |
| Initial Topography Cleanup..... | 3-11 |
| <i>Quick Punch List.....</i> | 3-11 |
| <i>Determine Direction of Proposed Alignment.....</i> | 3-11 |
| <i>Step One: Open Windows Explorer</i> | 3-11 |
| <i>Step Two: Open the Topo Folder.....</i> | 3-12 |
| <i>Step Three: Copy Files from Survey\MSA to Topo Folder</i> | 3-12 |
| <i>Step Four: Open MicroStation.....</i> | 3-14 |
| <i>Step Five: Attach Reference Files</i> | 3-15 |

| | |
|---|-------------|
| <i>Step Six: Turn Off Line Weights (Optional)</i> | 3-16 |
| <i>Step Seven: Adjust Level Display (Optional)</i> | 3-16 |
| <i>Step Eight: Load Clean-up Tools (Optional)</i> | 3-16 |
| <i>Step Nine: Adjust Ditch Arrows (May be Necessary)</i> | 3-18 |
| <i>Step Nine: Flatten Your Drawing</i> | 3-20 |
| <i>Step Ten: Determine Direction of Proposed Alignment</i> | 3-20 |
| <i>Step Eleven: Adjust View and Save Settings (Optional)</i> | 3-21 |
| <i>Step Twelve: Reverse Element Direction</i> | 3-22 |
| <i>Step Thirteen: Rotating Topography Cells</i> | 3-23 |
| <i>Step Fourteen: Rotating and Stretching Cells</i> | 3-26 |
| <i>Step Fifteen: Moving Vertices</i> | 3-26 |
| <i>Step Sixteen: Adjust and Save Changes (Courtesy To Others)</i> | 3-27 |
| <i>Step Seventeen: Add Note to Cleanlog.txt File!</i> | 3-27 |
| <i>Step Eighteen: Open and Flatten Contours and Points</i> | 3-27 |
| <i>Step Nineteen: Repeat for Mapping.dgn (Projects that Utilizes Aerial Mapping)</i> | 3-27 |
| Initial Text Cleanup | 3-29 |
| <i>Determine Direction of Proposed Alignment</i> | 3-29 |
| <i>Step One: Open the Text.dgn (From the Topo Folder)</i> | 3-29 |
| <i>Step Two: Reference Topo.dgn and Mapping.dgn (If exists)</i> | 3-30 |
| <i>Step Three: Flatten the Drawing</i> | 3-30 |
| <i>Step Four: Adjusting Text Height, Width and Line Spacing</i> | 3-30 |
| <i>Step Five: Rotating Text</i> | 3-31 |
| <i>Step Six: Moving Text</i> | 3-33 |
| <i>Step Seven: Editing Text (Optional)</i> | 3-33 |
| <i>Step Eight: Labeling With Arrows (Optional)</i> | 3-33 |
| <i>Step Nine: Find and Replace Text (Metric Projects Only)</i> | 3-34 |
| <i>Step Ten: Adjust and Save Changes (Courtesy To Others)</i> | 3-34 |
| <i>Step Eleven: Add Note to Cleanlog.txt File! (Courtesy To Others)</i> | 3-34 |
| Additional Topography Cleanup | 3-36 |
| <i>Quick Punch List</i> | 3-36 |
| <i>Step One: Copy/Rename Origtopoadd#, Origtextadd#, Contours and Points</i> | 3-36 |
| <i>Step Two: Add Note to Cleanlog.txt File!</i> | 3-36 |
| <i>Step Three: Open Topoadd#</i> | 3-37 |
| <i>Step Four: Attach Reference Files</i> | 3-37 |
| <i>Step Five: Refer to Step 6 through Step 18 in the "Initial Topo Cleanup" portion of this manual</i> | 3-37 |
| Additional Text Cleanup | 3-38 |
| <i>Determine Direction of Proposed Alignment</i> | 3-38 |
| <i>Step One: Open the Textadd#.dgn (From the Topo Folder)</i> | 3-38 |
| <i>Step Two: Reference Topoadd#.dgn</i> | 3-38 |
| <i>Step Three: Refer to Step 3 through Step 11 in the "Initial Text Cleanup" portion of this manual</i> | 3-38 |
| Blending New Topo and Text With Old | 3-39 |
| <i>General Information – Blending Tips</i> | 3-39 |
| <i>Aerial Mapping Projects</i> | 3-39 |
| <i>Adjust Colors for Easy Editing - Level Symbology (Optional)</i> | 3-39 |
| <i>File Swapping (Handy Tip - Optional)</i> | 3-45 |
| <i>Highlite Display of Reference Files (Optional)</i> | 3-45 |
| <i>Update the Reference File Sequence (Optional)</i> | 3-46 |
| Merging New Topo and Text With Old | 3-47 |
| <i>Step One: Open Topo.dgn and Attach Topoadd#.dgn</i> | 3-47 |
| <i>Step Two: Merging Topoadd# File</i> | 3-47 |
| <i>Step Three: Open Text.dgn and Attach Textadd#.dgn</i> | 3-47 |
| <i>Step Four: Merging Textadd# Files</i> | 3-48 |
| <i>Step Five: Moving Topoadd# and Textadd#</i> | 3-48 |
| <i>Step Six: Add Note to Cleanlog.txt File!</i> | 3-48 |
| <i>Step Seven: Copy Contents of Topo folder to Y:drive (Regional Employees)</i> | 3-49 |

| | |
|--|-------------|
| Wetland Survey Cleanup..... | 3-50 |
| General Information | 3-51 |
| <i>Standard Naming</i> | 3-51 |
| <i>Preserving Original Files</i> | 3-51 |
| <i>The End Result</i> | 3-51 |
| Initial Wetlands Cleanup | 3-52 |
| <i>Quick Punch List</i> | 3-52 |
| <i>Step One: Open Windows Explorer</i> | 3-52 |
| <i>Step Two: Open the Topo Folder</i> | 3-52 |
| <i>Step Three: Open the Survey\MSTA Folder - Copy Files to Topo Folder</i> | 3-53 |
| <i>Step Four: Open MicroStation</i> | 3-54 |
| <i>Step Five: Attach Reference Files</i> | 3-55 |
| <i>Step Six: Flatten Your Drawing</i> | 3-56 |
| <i>Step Seven: Adjust View and Save Settings (Optional)</i> | 3-56 |
| <i>Step Eight: Reverse Wetland Linestyle Direction</i> | 3-57 |
| <i>Step Nine: Moving Vertices</i> | 3-58 |
| <i>Step Ten: Adjusting Text Height and Width</i> | 3-59 |
| <i>Step Eleven: Rotating Text</i> | 3-59 |
| <i>Step Twelve: Moving Text</i> | 3-61 |
| <i>Step Thirteen: Add Note to Cleanlog.txt File!</i> | 3-62 |
| Additional Wetlands Cleanup..... | 3-63 |
| <i>Quick Punch List</i> | 3-63 |
| <i>Step One: Copy Wetlandsadd#</i> | 3-63 |
| <i>Step Two: Add Note to Cleanlog.txt File!</i> | 3-63 |
| <i>Step Three: Open Wetlandsadd#</i> | 3-63 |
| <i>Step Four: Attach Reference Files</i> | 3-63 |
| <i>Step Five: Refer to Step 6 through Step 13 in the "Initial Wetlands Cleanup" portion of this manual</i> | 3-64 |
| Merging New Wetlands With Old..... | 3-65 |
| <i>Step One: Open Wetlands.dgn and Attach Wetlandsadd#.dgn</i> | 3-65 |
| <i>Step Two: Merging Wetlandsadd# Files</i> | 3-65 |
| <i>Step Three: Moving Wetlandsadd#</i> | 3-65 |
| <i>Step Four: Add Note to Cleanlog.txt File!</i> | 3-65 |
| <i>Step Five: Copy Contents of Topo folder to Y:drive (Regional Employees)</i> | 3-66 |

CHAPTER 4 PLAN DEVELOPMENT.....4-1

| | |
|---|------------|
| Title Sheet Development..... | 4-2 |
| <i>Quick Punch List</i> | 4-2 |
| Create A Title Sheet | 4-3 |
| <i>Step One: Open MicroStation</i> | 4-3 |
| <i>Step Two: Create Title Sheet</i> | 4-3 |
| <i>Step Three: Editing Text Headings</i> | 4-3 |
| Creating Location Maps | 4-4 |
| <i>Step One: Open Location Map</i> | 4-4 |
| <i>Step Two: Locate the Project Area</i> | 4-4 |
| <i>Step Three: Place the Square</i> | 4-4 |
| <i>Step Four: Save the Locmap.dgn</i> | 4-4 |
| <i>Step Five: Copy Map to Clipboard</i> | 4-4 |
| <i>Step Six: Paste Map</i> | 4-5 |
| Creating A Layout (Highway Projects With A Survey & Design) | 4-6 |
| <i>Introduction</i> | 4-6 |
| <i>Step One: Create a Layout Drawing</i> | 4-6 |
| <i>Step Two: Place a North Arrow</i> | 4-6 |
| <i>Step Three: Rotate Your View</i> | 4-6 |

| | |
|--|-------------|
| <i>Step Four: Create a Saved View</i> | <i>4-7</i> |
| <i>Step Five: Reference the view into the Title Sheet</i> | <i>4-7</i> |
| <i>Step Six: Tweaking the Layout Placement</i> | <i>4-8</i> |
| <i>Step Seven: Stationing the Layout.....</i> | <i>4-8</i> |
| <i>Step Eight: Shading the Layout Drawing.....</i> | <i>4-10</i> |
| <i>Step Nine: Adjusting the Layout Scale.....</i> | <i>4-11</i> |
| <i>Step Ten: Place Text on the Title Sheet.....</i> | <i>4-12</i> |
| Creating A Layout (No Survey)..... | 4-13 |
| <i>Introduction</i> | <i>4-13</i> |
| <i>Step One: Place Temporary North Arrow</i> | <i>4-13</i> |
| <i>Step Two: Place a Fence.....</i> | <i>4-13</i> |
| <i>Step Three: Copy Fence.....</i> | <i>4-13</i> |
| <i>Step Four: Scale and Rotate</i> | <i>4-14</i> |
| <i>Step Five: Adjust Scale</i> | <i>4-14</i> |
| <i>Step Six: Place North Arrow.....</i> | <i>4-14</i> |
| <i>Step Seven: Place Text on the Title Sheet</i> | <i>4-14</i> |
| Typical Section Sheet Development | 4-15 |
| <i>Quick Punch List.....</i> | <i>4-15</i> |
| <i>Things to Remember</i> | <i>4-15</i> |
| <i>Freehand Template Techniques.....</i> | <i>4-15</i> |
| Creating a Typical Section Drawing File | 4-16 |
| <i>Step One: Open MicroStation</i> | <i>4-16</i> |
| <i>Step Two: Create a New Drawing(s)</i> | <i>4-16</i> |
| Creating Typicals Using the "Typsectn" Macro | 4-17 |
| <i>Introduction</i> | <i>4-17</i> |
| <i>Step One: Start Typical Section Program.....</i> | <i>4-17</i> |
| <i>Step Two: Enter lane Information.....</i> | <i>4-17</i> |
| <i>Step Three: Enter Pavement and Subgrade Depths.....</i> | <i>4-18</i> |
| Creating Typicals Using the Template Macro | 4-20 |
| Dimensions, Text, and Notes..... | 4-21 |
| Estimate Sheet Development..... | 4-22 |
| <i>Quick Punch List.....</i> | <i>4-22</i> |
| Exporting Quantity Items from the Estimator | 4-23 |
| <i>Introduction</i> | <i>4-23</i> |
| <i>Step One: Getting into Estimator</i> | <i>4-23</i> |
| <i>Step Two: Exporting (*.he) File.....</i> | <i>4-23</i> |
| Importing Lotus.CSV file into Estimated Quantities Sheet..... | 4-25 |
| <i>Step One: Open MicroStation</i> | <i>4-25</i> |
| <i>Step Two: Make an Estimate Sheet</i> | <i>4-25</i> |
| <i>Step Three: Run Estimate Macro</i> | <i>4-25</i> |
| <i>Step Four: Adjust Quantities</i> | <i>4-25</i> |
| <i>Additional Sheet Needed?</i> | <i>4-26</i> |
| Drainage Sheet Development | 4-27 |
| <i>Quick Punch List.....</i> | <i>4-27</i> |
| Using the Drainage Spreadsheet | 4-28 |
| <i>Introduction</i> | <i>4-28</i> |
| <i>Step One: Copy the Spreadsheet.....</i> | <i>4-28</i> |
| <i>Step Two: Enter Drainage Data</i> | <i>4-28</i> |
| <i>Step Three: Save as TXT file</i> | <i>4-28</i> |
| Importing Drainage Information..... | 4-31 |
| <i>Step One: Open MicroStation</i> | <i>4-31</i> |
| <i>Step Two: Make an Drainage Sheet.....</i> | <i>4-31</i> |

| | |
|---|-------------|
| <i>Step Three: Run the Macro</i> | 4-31 |
| <i>Multiple Drainage Sheets</i> | 4-31 |
| Notes Sheet Development | 4-33 |
| <i>Quick Punch List.....</i> | 4-33 |
| Location and Explanation of Template Files..... | 4-34 |
| <i>Introduction</i> | 4-34 |
| <i>General Notes</i> | 4-34 |
| <i>Summary of Excavation and Borrow</i> | 4-34 |
| <i>Estimating US Customary Projects.....</i> | 4-34 |
| <i>Estimating Metric Projects</i> | 4-35 |
| General Notes Sheets | 4-36 |
| <i>Step One: Copy the Template File</i> | 4-36 |
| <i>Step Two: Open and Edit Using WORD</i> | 4-36 |
| <i>Step Three: Save As .txt File</i> | 4-36 |
| <i>Step Four: Open and Copy the Text from the New File</i> | 4-37 |
| <i>Step Five: Open MicroStation.....</i> | 4-37 |
| <i>Step Six: Set Your Text Size and Font</i> | 4-37 |
| <i>Step Seven: Paste the Selected Text</i> | 4-38 |
| <i>Step Eight: Placing Text in the File</i> | 4-38 |
| <i>Step Nine: Editing Text</i> | 4-38 |
| Construction Note Sheets | 4-39 |
| <i>Introduction</i> | 4-39 |
| <i>Importing Reports into Excel (Informational/Optional)</i> | 4-39 |
| <i>Step One: Open Spreadsheet</i> | 4-40 |
| <i>Step Two: Save as Text (tab delimited)</i> | 4-41 |
| <i>Step Three: Warnings</i> | 4-41 |
| <i>Step Four: Open MicroStation.....</i> | 4-42 |
| <i>Step Five: Set Your Text Size and Font</i> | 4-42 |
| <i>Step Six: File Import>Text.....</i> | 4-42 |
| <i>Step Eight: Editing the Text</i> | 4-42 |
| Geometric Sheet Development..... | 4-43 |
| Clean-up the Geometry | 4-44 |
| <i>Introduction</i> | 4-44 |
| <i>Step One: Opening and Editing the Geometry</i> | 4-44 |
| <i>Step 2: Placing Notes from MX Reports</i> | 4-46 |
| <i>Step 3: Annotating Point Numbers.....</i> | 4-46 |
| Creating Geometric Plans | 4-47 |
| <i>Step One: Open the geometry.dgn</i> | 4-47 |
| <i>Step Two: Reference hdplan.dgn and Alignments.dgn.....</i> | 4-47 |
| <i>Step Three: Merging the Clip Boundaries into the Geometry File</i> | 4-47 |
| <i>Step Four: Make Geometric Plan Files</i> | 4-48 |
| <i>Troubleshooting</i> | 4-49 |
| <i>Adjusting Saved Views</i> | 4-50 |
| <i>Re-sheeting</i> | 4-50 |
| CHAPTER 5 ROADWAY SHEETS..... | 5-1 |
| Roadway Plan Sheet Development | 5-2 |
| Creating Roadway Plan Sheet Drawings..... | 5-3 |
| <i>Step One: Open your group's ??plan.dgn</i> | 5-3 |
| <i>Step Two: Reference in Survey Data.....</i> | 5-3 |
| <i>Step Three: Attach Proposed Design and Alignment.....</i> | 5-4 |
| <i>Step Four: Sheeting up the Plans.....</i> | 5-5 |

| | |
|---|-------------|
| <i>Step Five: Placing North Arrows.....</i> | <i>5-5</i> |
| <i>Step Six: Make new Plan Files.....</i> | <i>5-6</i> |
| <i>Live Nesting</i> | <i>5-8</i> |
| <i>Troubleshooting.....</i> | <i>5-8</i> |
| <i>Adjusting Saved Views.....</i> | <i>5-8</i> |

| <i>Behind the Scenes: The Long Way Around</i> | 7-21 |
| <i>Placing Text Annotation</i> | 7-22 |
| <i>Some Difficulties</i> | 7-23 |
| <i>Changing Your Mind About Scale</i> | 7-23 |

CHAPTER 8 TRAFFIC SHEETS8-1

Accident Records Workflow8-2

| | |
|---|-----|
| PIN CREATION | 8-3 |
| <i>Step One: Opening the Command Prompt Screen</i> | 8-3 |
| <i>Step Two: Changing Directory</i> | 8-3 |
| <i>Step Three: Creating the Project Identifier</i> | 8-3 |
| <i>Step Four: Editing Your Project Configuration File</i> | 8-5 |
| <i>Step Five: Closing Command Prompt Window</i> | 8-6 |

CHAPTER 9 ROW SHEETS9-1

Overview.....9-2

| | |
|--|-----|
| Construct Station and Offset | 9-3 |
| <i>Starting Point</i> | 9-3 |
| <i>Entering the Distance and Direction</i> | 9-3 |
| <i>Choosing the Direction</i> | 9-3 |
| <i>Choosing the Offset Distance</i> | 9-4 |
| <i>Troubleshooting</i> | 9-5 |

Procedures9-7

| | |
|--|------|
| Creating ROW Plan Sheets | 9-8 |
| <i>Step One: Open RWPLAN-clips.dgn</i> | 9-8 |
| <i>Step Two: Cut Sheets</i> | 9-9 |
| <i>Step Three: Make new Plan Files</i> | 9-10 |

| | |
|---|------|
| Construct a Metes and Bounds Description | 9-11 |
| <i>Tools</i> | 9-11 |
| <i>Setup</i> | 9-11 |
| <i>Placing Lines</i> | 9-12 |
| <i>For More Information</i> | 9-12 |
| <i>Offset Using Copy Parallel</i> | 9-12 |
| <i>Fitting the Layout</i> | 9-13 |
| <i>Fine Tuning</i> | 9-14 |

| | |
|--------------------------------|------|
| Baseline Overview | 9-15 |
|--------------------------------|------|

| | |
|------------------------------------|------|
| Baseline Tools | 9-16 |
| <i>Smartline</i> | 9-16 |
| <i>A Word About Accudraw</i> | 9-16 |

| | |
|--|-------------|
| Accudraw Shortcuts | 9-17 |
| Conclusions..... | 9-17 |
| Baseline Geometry..... | 9-18 |
| Step One: Bearing and Distance..... | 9-18 |
| Step Two: Troubleshoot and Prepare to Draw a Curve | 9-19 |
| Step Three: Draw a Curve | 9-20 |
| Step Four: Troubleshoot and Prepare for Another Curve or Tangent | 9-21 |
| Step Five: Troubleshoot and Prepare for Another Curve or Tangent | 9-22 |
| Baseline Checking/Changing..... | 9-23 |
| Drop Complex..... | 9-23 |
| Measure Lengths..... | 9-23 |
| Measure Radius of Curves | 9-24 |
| Fix the Problems..... | 9-25 |
| Modify..... | 9-25 |
| Rotate..... | 9-25 |
| Punt..... | 9-26 |
| Put It Back Together Again..... | 9-26 |
| Baseline Stationing | 9-28 |
| Construct the PCs and PTs | 9-28 |
| Double Check Your Baseline Chain..... | 9-28 |
| Generate a Station Marker | 9-28 |
| Place Generic Stations..... | 9-29 |
| Fill in the Station Information | 9-29 |
| PTs and Curve Data | 9-32 |
| Text Placement Options | 9-32 |
| Label the PCs and PTs..... | 9-32 |
| Place PC/PT Circles | 9-33 |
| Place and Edit Curve Data | 9-33 |
| Resources | 9-36 |
| ROW Function Keys..... | 9-37 |

CHAPTER 10 HEARING SHEETS.....10-1**CHAPTER 11 ENVIRONMENTAL SHEETS .11-1**

| | |
|---|-------------|
| MHPC Documentation | 11-2 |
| Quick Punch List..... | 11-2 |
| Viewing A Project Using MHPC Color Scheme..... | 11-3 |
| Step One: Start MicroStation..... | 11-3 |
| Step Two: Creating a MHPC File..... | 11-3 |
| Step Three: Adjust Background to White | 11-3 |
| Creating MHPC Plan Sheets..... | 11-5 |
| Step One: Temporarily Attach HDPLAN or BDPLAN.dgn (Optional)..... | 11-5 |
| Step Two: Copy Clip Boundaries..... | 11-5 |
| Step Three: Create the Cut Sheets | 11-5 |
| Step Four: Troubleshooting..... | 11-7 |
| Editing MHPC Plan Sheets..... | 11-8 |
| Step One: Run the Border Information macro | 11-8 |
| Step Two: Place MHPC Legend | 11-8 |
| Step Three: Edit the Plan Type in the Title Box..... | 11-8 |
| Step Four: Repeat as Necessary | 11-8 |
| Adjusting Colors Manually In Reference Files | 11-9 |

| | |
|--|--------------|
| Batch Printing MHPC Plans Sheets..... | 11-11 |
| <i>Step One: Open Batch Print Dialog</i> | <i>11-11</i> |
| <i>Step Two: Select a Printer</i> | <i>11-11</i> |
| <i>Step Three: Select Print Area.....</i> | <i>11-11</i> |
| <i>Step Four: Select a Display (Pentable).....</i> | <i>11-11</i> |
| <i>Step Five: Add Design Files</i> | <i>11-11</i> |
| <i>Step Six: Send the Plots.....</i> | <i>11-11</i> |
| Wetland Plans | 11-12 |
| <i>Quick Punch List.....</i> | <i>11-12</i> |
| <i>Need to Find Wetland Drawings?.....</i> | <i>11-12</i> |
| Plotting Wetland Plans for Biologist's (Using others Plan Sheets)..... | 11-13 |
| <i>Introduction</i> | <i>11-13</i> |
| <i>Step One: Start MicroStation.....</i> | <i>11-13</i> |
| <i>Step Two: Open Any Drawing</i> | <i>11-13</i> |
| <i>Step Three: Batch Printing - Create a New Batch Job</i> | <i>11-13</i> |
| Creating Wetland Plan Sheets for Biologist's | 11-15 |
| <i>Introduction</i> | <i>11-15</i> |
| <i>Step One: Temporarily Attach HDPLAN or BDPLAN.dgn (Optional).....</i> | <i>11-15</i> |
| <i>Step Two: Copy Clip Boundaries.....</i> | <i>11-15</i> |
| <i>Step Three: Create the Cut Sheets</i> | <i>11-15</i> |
| <i>Step Four: Troubleshooting.....</i> | <i>11-17</i> |
| <i>Step Five: Batch Printing - Create a New Batch Job</i> | <i>11-18</i> |
| Army Corp. Documentation | 11-19 |
| <i>Quick Punch List.....</i> | <i>11-19</i> |
| Cross Hatching Wetlands | 11-20 |
| <i>Introduction</i> | <i>11-20</i> |
| <i>Step One: Start MicroStation.....</i> | <i>11-20</i> |
| <i>Step Two: Locate the Wetlands.....</i> | <i>11-20</i> |
| <i>Step Three: Lock "Z" to Zero.....</i> | <i>11-20</i> |
| <i>Step Four: Set the Category Scale</i> | <i>11-20</i> |
| <i>Step Five: Cross Hatching Wetlands</i> | <i>11-21</i> |
| Adding Filled Shapes..... | 11-22 |
| <i>Step One: Set the Shade Type</i> | <i>11-22</i> |
| <i>Step Two: Create the Shape.....</i> | <i>11-22</i> |
| <i>Step Three: Send Fill Back</i> | <i>11-22</i> |
| <i>Step Four: Reset the Fill Type</i> | <i>11-22</i> |
| Measuring Areas and Placing Text..... | 11-23 |
| <i>Step One: Lock "Z" to Zero.....</i> | <i>11-23</i> |
| <i>Step Two: Set the Category Scale</i> | <i>11-23</i> |
| <i>Step Three: Set the Text Attributes.....</i> | <i>11-23</i> |
| <i>Step Four: Open Measure Area Tools</i> | <i>11-23</i> |
| <i>Step Five: Select by Attributes</i> | <i>11-24</i> |
| <i>Step Six: Select Measure Area Tool.....</i> | <i>11-25</i> |
| <i>Step Seven: Select None</i> | <i>11-25</i> |
| <i>Step Eight: Edit the Text (Optional)</i> | <i>11-25</i> |
| <i>Step Nine: Masking References (Optional).....</i> | <i>11-26</i> |
| Creating 8 ½ x 11 Cut Sheets | 11-27 |
| <i>Step One: Set Category Scale</i> | <i>11-27</i> |
| <i>Step Two: Place 8 ½ x 11 Clip Boundaries</i> | <i>11-27</i> |
| <i>Step Three: Create the Cut Sheets</i> | <i>11-27</i> |
| <i>Step Four: Troubleshooting.....</i> | <i>11-29</i> |
| <i>Step Five: Run the Border Information macro.....</i> | <i>11-29</i> |
| Batch Printing 8 ½ x 11 Cut Sheets..... | 11-31 |

| | |
|--|-------|
| <i>Step One: Open Batch Print Dialog</i> | 11-31 |
| <i>Step Two: Select a Printer</i> | 11-31 |
| <i>Step Three: Select Print Area.....</i> | 11-31 |
| <i>Step Four: Select a Display (Pentable).....</i> | 11-31 |
| <i>Step Five: Add Design Files</i> | 11-31 |
| <i>Step Six: Save your Batch Print job.....</i> | 11-32 |
| <i>Step Seven: Send the Plots</i> | 11-32 |

CHAPTER 12 REGIONAL WORKFLOW12-1

| | |
|--|-------------|
| Regional .UCF (User Configuration File) | 12-2 |
| Adjusting Existing Users To Regional Preferences..... | 12-3 |
| <i>Step One: Copy New .UCF Files</i> | 12-3 |
| <i>Step Two: Adjust the .UCF Files (If necessary).....</i> | 12-3 |
| <i>Step Three: Working Locally or On the Network.....</i> | 12-3 |

Using a Briefcase.....12-5

| | |
|---|-------|
| Create a “PIN” Briefcase | 12-6 |
| <i>Step One: Create a Briefcase.....</i> | 12-6 |
| <i>Step Two: Rename the Briefcase.....</i> | 12-6 |
| <i>Step Three: Open the Briefcase</i> | 12-7 |
| Adding Projects to your “PIN” Briefcase | 12-8 |
| <i>Step One: Adding Network Files To Your “PIN” Briefcase</i> | 12-8 |
| <i>Step Two: Select the File Types</i> | 12-8 |
| <i>Step Three: Repeat as Necessary.....</i> | 12-9 |
| <i>Step Four: Moving Files from another folder to your PIN Briefcase (Optional)</i> | 12-9 |
| Synchronize Your Briefcase | 12-11 |
| <i>Update Briefcase and Network</i> | 12-11 |
| Adding Additional File Types To Be Synchronized | 12-14 |
| <i>Step One: Right Click Your Project at the root of the PIN Briefcase</i> | 12-14 |
| <i>Step Two: Select the Update Info Tab.....</i> | 12-14 |
| <i>Step Three: Synchronize Your Briefcase.....</i> | 12-15 |
| Removing a Project from the Briefcase | 12-16 |
| <i>Step One: Open Briefcase and browse to the MSTA folder</i> | 12-16 |
| <i>Step Two: Sort by File Status and copy to Clipboard</i> | 12-16 |
| <i>Step Three: Paste files into the appropriate folder on the Y: drive.....</i> | 12-16 |
| <i>Step Four: Delete the Project</i> | 12-16 |

CHAPTER 13 CONSULTANT CADD COORDINATION13-1

| | |
|---|-------------|
| Consultant CADD Coordination | 13-2 |
| Determine the Consultants Duties (Project by Project Basis) | 13-3 |
| <i>What is their responsibility?</i> | 13-3 |
| <i>What do they need from us?</i> | 13-3 |
| Sending Survey Files to a Consultant | 13-5 |
| <i>MDOT Survey Data</i> | 13-5 |
| <i>Step One: Posting files to Outgoing FTP site</i> | 13-6 |
| <i>Step Two: Browse and Push Files to FTP</i> | 13-7 |
| <i>Step Three: Send Email with Link to File</i> | 13-8 |
| Sending Other Files to a Consultant | 13-9 |
| <i>Step One: Create Consultant “Out” Folder</i> | 13-9 |

| | |
|--|--------------|
| <i>Step Two: Create a Zip file</i> | 13-9 |
| <i>Step Three: Post to Outgoing FTP site</i> | 13-10 |
| Receiving Project Files from a Consultant | 13-11 |
| <i>File Format</i> | 13-11 |
| <i>Drawings to Receive</i> | 13-11 |
| <i>What don't we want back?</i> | 13-11 |
| <i>Step One: Create a Consultant Directory</i> | 13-11 |
| <i>Step Two: Download Files From Incoming FTP Site</i> | 13-12 |
| <i>Step Three: Extract Files from the Zip folder</i> | 13-14 |
| <i>Step Four: Move Files to Bridge\MSTA, Highway\MSTA or ROW\MSTA</i> | 13-15 |
| <i>Step Five: Rename Consultant files in MSTA Folder</i> | 13-15 |
| <i>Step Six: Compare with our Files (Optional)</i> | 13-16 |
| <i>Step Seven: Send Message to Team Members</i> | 13-16 |
| Receiving Updates from a Consultant | 13-17 |
| <i>Communication</i> | 13-17 |
| <i>Is this a Complete Replacement?</i> | 13-17 |
| <i>Readme file</i> | 13-17 |
| <i>Step One: Create an OLD folder</i> | 13-17 |
| <i>Step Two: Move Older file(s) into the OLD folder</i> | 13-17 |
| <i>Step Three: Copy File From FTP to Consultant folder</i> | 13-17 |
| <i>Step Four: Extract files and move to MSTA Folder and Rename Accordingly</i> | 13-18 |
| <i>Step Five: Compare with our Files (Optional)</i> | 13-18 |
| <i>Step Six: Send Message to Team Members</i> | 13-18 |
| Creating a .Dwg..... | 13-19 |
| Process Of Saving a Single File As a DWG | 13-20 |
| <i>Introduction</i> | 13-20 |
| <i>Step One: Open file to be Converted</i> | 13-20 |
| <i>Step Two: Select File Save As</i> | 13-20 |
| <i>Step Three: Adjust Options</i> | 13-20 |
| <i>Step Four: Zip and FTP the File</i> | 13-23 |
| Batch Processing Multiple Files to DWG | 13-24 |
| <i>Introduction</i> | 13-24 |
| <i>Step One: Open a File</i> | 13-24 |
| <i>Step Two: Start Batch Utility</i> | 13-24 |
| <i>Step Two: Adjust Options</i> | 13-24 |
| <i>Step Three: Adjust Destination</i> | 13-24 |
| <i>Step Four: Add Files to Convert</i> | 13-24 |
| <i>Step Five: Process Files</i> | 13-25 |
| <i>Step Six: Zip and FTP the File</i> | 13-27 |

CHAPTER 14 USING PACKAGER (ARCHIVE)

.....**14-1**

| | |
|---|-------------|
| Packaging a MicroStation File(s) – (Version 8 and higher)..... | 14-2 |
| Packaging Single or Multiple Files | 14-3 |
| <i>Step One: Open File to Package (Archive)</i> | 14-3 |
| <i>Step Two: Open Packaging Utility</i> | 14-3 |
| <i>Step Three: Enter Package Name</i> | 14-3 |
| <i>Step Four: Select Design Options</i> | 14-3 |
| <i>Step Five: Gather Design Data</i> | 14-4 |
| <i>Step Six: Select Workspace Options</i> | 14-4 |
| <i>Step Seven: Review Selections</i> | 14-5 |
| <i>Step Eight: Packaging Options</i> | 14-5 |

| | |
|--|--------------|
| <i>Step Nine: Finish</i> | 14-6 |
| Opening a MicroStation V8 Package (.pzip) File | 14-7 |
| Extracting a Package File | 14-8 |
| <i>Step One: Locate Package File.....</i> | 14-8 |
| <i>Step Two: Open the Package File.....</i> | 14-8 |
| <i>Step Three: Set the Location for Extraction of Files.....</i> | 14-8 |
| <i>Step Four: Extracting the Package File.....</i> | 14-8 |
| <i>Step Six: Finding the Extracted Files.....</i> | 14-9 |
| <i>Step Seven: Opening, Moving or Copying the Extracted Files.....</i> | 14-9 |
| MicroStation Archiving Procedures (prior to V8) | 14-10 |
| Extracting An Archive | 14-11 |
| <i>Step One: Start Utility.....</i> | 14-11 |
| <i>Step Two: Open the Archive</i> | 14-11 |
| <i>Step Three: Select Files to Extract.....</i> | 14-11 |
| <i>Step Four: Extract</i> | 14-11 |
| <i>Step Five: Adjust Settings</i> | 14-12 |
| <i>Step Six: Preserve Date and Time.....</i> | 14-12 |
| <i>Step Seven: Set the Destination.....</i> | 14-12 |
| <i>Step Eight: Close the Archive Window</i> | 14-14 |

CHAPTER 15 USING ADDITIONAL SOFTWARE

15-1

| | |
|---|--------------|
| PDF FILE CREATION | 15-2 |
| Creating PDF Files..... | 15-3 |
| <i>Overview.....</i> | 15-3 |
| <i>Step One: Open File and Select your Printer Driver.....</i> | 15-3 |
| <i>Step Two: Setting up your Plot options.....</i> | 15-3 |
| <i>Step Three: Plotting and Saving your PDF</i> | 15-6 |
| Making One PDF File out of Multiples | 15-10 |
| <i>Overview.....</i> | 15-10 |
| <i>Step One: Opening and Saving a Master File</i> | 15-10 |
| <i>Step Two: Inserting PDF Files</i> | 15-11 |
| <i>Step Three: Verify Page Order</i> | 15-12 |
| Scanning To Microsoft Word | 15-14 |
| Scanning To Microsoft Word | 15-15 |
| <i>Overview.....</i> | 15-15 |
| <i>Step One: Logging In</i> | 15-15 |
| <i>Step Two: Open Template Document.....</i> | 15-15 |
| <i>Step Three: Accessing the Scanner</i> | 15-15 |
| <i>Step Four: Setting the Image to return to Microsoft Word</i> | 15-16 |
| <i>Step Five: Saving the Document</i> | 15-17 |
| Using Estimator | 15-19 |
| Using Estimator | 15-20 |
| <i>Introduction</i> | 15-20 |
| <i>Step One: Getting into Estimator</i> | 15-20 |
| <i>Step Two: Starting a new Estimator Project</i> | 15-20 |
| <i>Step Three: Adding items to the List</i> | 15-22 |
| <i>Step Four: Editing Existing Data.....</i> | 15-24 |
| <i>Step Five: Printing and Saving</i> | 15-24 |

| | |
|--|--------------|
| <i>Project Work Type Codes</i> | 15-25 |
| <i>Additional Information</i> | 15-26 |
| File Transfer Using the FTP Site..... | 15-27 |
| General Information | 15-28 |
| <i>General Rules of Thumb!</i> | 15-28 |
| Using FTP..... | 15-29 |
| <i>Step One: Open FTP Software</i> | 15-29 |
| <i>Step Two: Browse and Push Files to FTP</i> | 15-29 |
| Sending Links in Email Messages (Optional) | 15-31 |
| <i>Step One: Type address to FTP in email</i> | 15-31 |
| <i>Step Two: Add Subject Line and Send</i> | 15-31 |
